**JUSTIFICATION:**

Hatchery produced king salmon resulting from releases at Burro Creek Hatchery, Jerry Myers Hatchery and the Skagway Boat Harbor are expected to return to Pullen Creek in excess of hatchery needs. Excess king salmon will be passed upstream of the Jerry Myers hatchery weir where they will be available for harvest. In addition, hatchery-produced king salmon have strayed from their production areas to the Skagway River. These king salmon exceed hatchery requirements and the Skagway River does not support a king salmon population. Regulations changing bag and possession limits are therefore modified according to provisions in 5AAC 75.003 (2) (B) to allow harvest of these excess king salmon by sport anglers.
